

## Table of Contents

	<b>Page</b>
<b>1.0 Introduction</b>	<b>1</b>
1.1 Proponent	2
1.2 Ontario Environmental Assessment Act Requirements	2
1.3 Overview of the Upper York Sewage Solutions EA Process	3
1.4 Overview of the UYSS EA Report	6
<b>2.0 Stage One: Purpose of and Rationale for the Undertaking</b>	<b>11</b>
2.1 Purpose of the Undertaking	11
2.2 Rationale for the Undertaking	11
2.2.1 Description of the Existing Sewage Servicing System for the Upper York Area	11
2.2.2 York Region's Water Efficiency and Conservation Programs/Initiatives	16
2.2.3 York Region's Water and Wastewater Sustainability Strategy	19
2.2.4 Protection of Lake Simcoe and the Surrounding Watershed	20
2.2.5 Great Lakes Intra-Basin Transfer of Water	21
2.2.6 Approved Growth in the UYSS Service Area	22
2.2.7 UYSS Service Area Water and Wastewater Servicing Needs	23
2.2.8 Previous Findings and Recommendations for Servicing Planned Growth in the Upper York Area	24
<b>3.0 Stage Two: Alternatives To the Undertaking</b>	<b>26</b>
3.1 Overview of the Approved Methodology for Identifying the Preferred Alternative To the Undertaking(s)	26
3.2 Confirmation and Description of the Alternatives To the Undertaking	26
3.2.1 Alternative No. 1: Do Nothing	27
3.2.2 Alternative No. 2: Discharge to Lake Ontario	27
3.2.3 Alternative No. 3: Discharge to Lake Simcoe	28
3.2.4 Alternative No. 4: Innovative Wastewater Treatment Technologies - Lake Simcoe Water Reclamation Centre	30
3.2.5 Confirmation of the Alternatives To the Undertaking	33
3.3 Description of the Environment Potentially Affected	33
3.3.1 Natural Environment	35
3.3.2 Built Environment	39
3.3.3 Social Environment	43
3.3.4 Economic Environment	43
3.3.5 Cultural Environment	45
3.4 Screening of the Alternatives To the Undertaking	45
3.4.1 Confirmation of the Proposed Screening Criteria (Task A)	46
3.4.2 Application of the Confirmed Screening Criteria (Task B)	47
3.4.3 Selection of the Recommended Alternative (Task C)	55

## Table of Contents

	<b>Page</b>
3.4.4 Identification of the Preferred Alternative (Task D)	60
<b>4.0 Stage Three: Alternative Methods of Carrying Out the Undertaking</b>	<b>63</b>
4.1 Overview of the Approved Methodology for Identifying the Preferred Alternative Method(s)	63
4.2 Task 1: Collection and Review of Existing Information Sources	64
4.3 Stage Three A: Proposed Water Reclamation Centre	67
4.3.1 Task 2: Generation of a Long List of Alternative Water Reclamation Centre Sites	67
4.3.1.1 Request for Expression of Interest for Potential Sites for a Proposed Water Reclamation Centre	73
4.3.1.2 Confirmation of the Final Long List of Alternative Water Reclamation Centre Sites	75
4.3.2 Task 3: Screening of the Long List of Alternative Water Reclamation Centre Sites	79
4.3.2.1 Development of Screening Criteria	79
4.3.2.2 Updating of the GIS Model Based on Additional Existing Condition Information	80
4.3.2.3 Application of the Screening Criteria	80
4.3.2.4 Selection of the Short List of Alternative Water Reclamation Centre Sites	87
4.3.3 Conveyance Infrastructure from/to the Short List of Alternative Water Reclamation Centre Sites	89
4.3.3.1 Development of Conveyance Infrastructure	89
4.3.3.2 Proposed Water Reclamation Centre Conveyance Infrastructure	91
4.3.3.3 Selection of the Outfall Location	93
4.3.4 Description of the Conveyance Infrastructure for each of the Short List of Alternative Water Reclamation Centre Sites	99
4.3.4.1 Alternative Water Reclamation Centre Site No. 24	101
4.3.4.2 Alternative Water Reclamation Centre Site No. 30	103
4.3.4.3 Alternative Water Reclamation Centre Site WH1	105
4.3.4.4 Alternative Water Reclamation Centre Site WH2	107
4.3.5 Confirmation of the Short List of Alternative Water Reclamation Centre Sites	109
4.3.6 Task 4: Data Collection from Field Investigations and Description of the Environment Potentially Affected	111
4.3.6.1 Natural Environment	112
4.3.6.2 Built Environment	123
4.3.6.3 Social Environment	127
4.3.6.4 Economic Environment	128
4.3.6.5 Cultural Environment	129
4.3.7 Task 5: Assessment of the Short List of Alternative Water

Table 9.1	Amendment Requirement of Potential Changes to the Undertaking	474

## List of Appendices

### Volume 2 Appendices to Sections 1 to 6, 8 and 9

Appendix A	Approved (As Amended) Terms of Reference
Appendix B	Terms of Reference Requirements Table
Appendix C	List of Studies and Reports
Appendix D	Water and Wastewater Unit Rates and Projected Flows for UYSS Service Area
Appendix E	Summary of Previous Studies and Class EAs for Servicing the Upper York Area
Appendix F	Screening Criteria and Assessment of the Alternatives To the Undertaking
Appendix G	Application of Mandatory Site Generation Criteria
Appendix H	Application of Avoidance and Site Suitability Criteria
Appendix I	Request for Expression of Interest Process
Appendix J	Map Book: Final Long List of Potential Alternative Water Reclamation Centre Sites
Appendix K	Site Screening Criteria and Results
Appendix L	Rationale for Selection of the Short List of Water Reclamation Centre Sites
Appendix M	Results of Application of Assessment Criteria to the Potential Outfall Locations
Appendix N	Maps and Plan Profiles for Conveyance Infrastructure for the Short List of Alternative Water Reclamation Centre Sites
Appendix O	Net Effects Assessment for the Short List of Alternative Water Reclamation Centre Sites
Appendix P	Reasoned Argument (or Trade-Off) Method Description and Detailed Results of Comparative Evaluation of the Short Listed Water Reclamation Centre Sites
Appendix Q	Maps and Plan Profiles for the York Durham Sewage System Modifications Alternative Routes
Appendix R	Net Effects Assessment and Comparative Evaluation of the York Durham Sewage System Modifications Alternative Routes

## List of Appendices

### Volume 3

#### Appendices to Sections 7 (Consultation Summary)

Appendix A	Protocol for First Nations Consultation
Appendix B	Métis Consultation and Accommodation: A Guide for Government and Industry on Engaging Métis in Ontario
Appendix C	List of Public Participants Involved in the UYSS EA
Appendix D	Review Agency Advisory Committee Roles and Responsibilities and Meeting Summaries
Appendix E	Government Review Team Meeting Summaries
Appendix F	Review Agency Meeting Summaries
Appendix G	York Regional Council, Local Area Municipal Council and Lake Simcoe Region Conservation Authority Board Meeting Minutes
Appendix H	Written Correspondence from Review Agencies and Responses
Appendix I	Written Correspondence to First Nations Regarding Joint Meetings and Meeting Summaries
Appendix J	Written Correspondence to Kawartha-Nishnawbe of Burleigh Falls First Nation
Appendix K	Written Correspondence from Chippewas of Georgina Island First Nation and Meeting Summaries
Appendix L	Chippewas of Georgina Island First Nation Technical Review Communications Protocol
Appendix M	Written Correspondence to and from Métis organizations
Appendix N	Community Liaison Forum Roles and Responsibilities and Meeting Summaries
Appendix O	Written Correspondence to Land Owners
Appendix P	Public Meeting Summary Reports
Appendix Q	Community Meeting Summary Reports
Appendix R	River Drive Park Community Recreation Centre Advisory Committee and Holland Landing Snowmobile Club Meeting Summaries
Appendix S	Summary of Meetings on Alternatives To the Undertaking
Appendix T	Written Correspondence from Members of the Public and Responses
Appendix U	Notification to Property Owners Adjacent to Proposed Total Phosphorus Off-Sets
Appendix V	Summary of Interviews on Innovative Wastewater Treatment Technologies
Appendix W	Notification of Presubmission of the Draft UYSS EA Report
Appendix X	Written Correspondence on the Draft UYSS EA Report and Responses
Appendix Y	Summary of Meetings on the Draft UYSS EA Report
Appendix Z	Notification of Formal Submission of the UYSS EA Report to the Ministry of the Environment

## List of Reference Documents

*Please note that electronic copies of all reference documents can be found at [www.uysolutions.ca](http://www.uysolutions.ca), as well as in hard copy at the project office in Newmarket.*

Conestoga-Rovers & Associates (CRA), AECOM, and Black & Veatch. August 2011 (2011a). Upper York Sewage Solutions Environmental Assessment, Screening Assessment of the Alternatives to the Undertaking.

CRA, AECOM, and Black & Veatch. November 2011 (2011b). Upper York Sewage Solutions Environmental Assessment, Hydrodynamic and Water Quality Modelling of the Proposed Water Reclamation Centre Discharge to the East Holland River.

CRA, AECOM, and Black & Veatch. April 2012 (2012a). Upper York Sewage Solutions Environmental Assessment, Generation of the Long List of Potential Alternative Water Reclamation Centre Sites.

CRA, AECOM, and Black & Veatch. May 2012 (2012b). Upper York Sewage Solutions Environmental Assessment, Screening of the Long List of Potential Alternative Water Reclamation Centre Sites and Development of the York Durham Sewage System Modifications.

CRA, AECOM and Black & Veatch. June 2012 (2012c). Upper York Sewage Solutions Environmental Assessment, Alternatives To the Undertaking Technical Concept Document.

CRA, AECOM, and Black & Veatch. October 2012 (2012d). Upper York Sewage Solutions Environmental Assessment, Study of Potential Impacts of the Water Reclamation Centre Discharge on Flooding Potential in the East Holland River.

CRA, AECOM and Black & Veatch. February 2013 (2013a). Upper York Sewage Solutions Environmental Assessment, Technical Concept Level 1 Document.

CRA, AECOM and Black & Veatch. March 2013 (2013b). Upper York Sewage Solutions Environmental Assessment, Noise and Vibration Baseline Conditions Report.

CRA, AECOM, and Black & Veatch. March 2013 (2013c). Upper York Sewage Solutions Environmental Assessment, Traffic Assessment Report.

CRA, AECOM, and Black & Veatch. March 2013 (2013d). Upper York Sewage Solutions Environmental Assessment, Visual Baseline Conditions Report for the Short List of Water Reclamation Centre Sites.

CRA, AECOM, Black & Veatch, and DBH Soil Services. April 2013 (2013e). Upper York Sewage Solutions Environmental Assessment, Agricultural Baseline Conditions Report.

## List of Reference Documents

*Please note that electronic copies of all reference documents can be found at [www.uysolutions.ca](http://www.uysolutions.ca), as well as in hard copy at the project office in Newmarket.*

CRA, AECOM, Black & Veatch, and Archaeological Services Inc. April 2013 (2013f). Upper York Sewage Solutions Environmental Assessment, Archaeological Baseline Conditions Report.

CRA, AECOM, Black & Veatch and Archaeological Services Inc. April 2013 (2013g). Upper York Sewage Solutions Environmental Assessment, Cultural Heritage Baseline Conditions Report.

CRA, AECOM, and Black & Veatch. April 2013 (2013h). Upper York Sewage Solutions Environmental Assessment, Land Use Baseline Conditions Report.

CRA, AECOM, and Black & Veatch. April 2013 (2013i). Upper York Sewage Solutions Environmental Assessment, Natural Environment Baseline Conditions Report.

CRA, AECOM, and Black & Veatch. June 2013 (2013j). Upper York Sewage Solutions Environmental Assessment, Assessment and Comparative Evaluation of the Short List of Alternative Water Reclamation Centre Sites and the York Durham Sewage System Modifications Alternative Routes.

CRA, AECOM and Black & Veatch. June 2013 (2013k). Upper York Sewage Solutions Environmental Assessment, Technical Concept Level 2 Document.

CRA, AECOM, and Black & Veatch. December 2013 (2013l). Upper York Sewage Solutions Environmental Assessment, Assessment of the Proposed Water Reclamation Centre Discharge on Aquatic Habitat in the East Holland River.

CRA, AECOM, and Black & Veatch. December 2013 (2013m). Upper York Sewage Solutions Environmental Assessment, Comprehensive Assimilative Capacity Study of the Water Reclamation Centre Discharge.

CRA, AECOM, and Black & Veatch. December 2013 (2013n). Upper York Sewage Solutions Environmental Assessment, Geomorphological Assessment of the Water Reclamation Centre Discharge.

CRA, AECOM, and Black & Veatch. December 2013 (2013o). Upper York Sewage Solutions Environmental Assessment, Hydrodynamic Analysis of the Water Reclamation Centre Outfall.

CRA, AECOM, and Black & Veatch. December 2013 (2013p). Upper York Sewage Solutions Environmental Assessment, Thermal Effects of the Water Reclamation Centre Discharge on the East Holland River.

## List of Reference Documents

*Please note that electronic copies of all reference documents can be found at [www.uysolutions.ca](http://www.uysolutions.ca), as well as in hard copy at the project office in Newmarket.*

CRA, AECOM, Black & Veatch, and Archaeological Services Inc. December 2013 (2013q). Upper York Sewage Solutions Environmental Assessment, Archaeological Impact Assessment Report.

CRA, AECOM, Black & Veatch, and Archaeological Services Inc. December 2013 (2013r). Upper York Sewage Solutions Environmental Assessment, Cultural Heritage Impact Assessment Report.

CRA, AECOM, Black & Veatch, and DBH Soil Services. December 2013 (2013s). Upper York Sewage Solutions Environmental Assessment, Agricultural Impact Assessment Report.

CRA, AECOM, and Black & Veatch. January 2014 (2014a). Upper York Sewage Solutions Environmental Assessment, Alternative Methods of Carrying Out the Undertaking - Cost Estimate Report.

CRA, AECOM, and Black & Veatch. January 2014 (2014b). Upper York Sewage Solutions Environmental Assessment, Preferred Alternative Method of Carrying Out the Undertaking - Cost Estimates Report.

CRA, AECOM, and Black & Veatch. January 2014 (2014c). Upper York Sewage Solutions Environmental Assessment, Land Use Impact Assessment Report.

CRA, AECOM, and Black & Veatch. January 2014 (2014d). Upper York Sewage Solutions Environmental Assessment, Supporting Documentation for the Queensville Sideroad Water Reclamation Centre Outfall Location.

CRA, AECOM, and Black & Veatch. July 2014 (2014e) Upper York Sewage Solutions Environmental Assessment, Advanced Treatment Demonstration Facility Summary of Findings.

CRA, AECOM, and Black & Veatch. July 2014 (2014f) Upper York Sewage Solutions Environmental Assessment, Assessment of the Proposed Reclaimed Water Program.

CRA, AECOM, and Black & Veatch. July 2014 (2014g). Upper York Sewage Solutions Environmental Assessment, Natural Environment Impact Assessment Report.

CRA, AECOM, and Black & Veatch. July 2014 (2014h). Upper York Sewage Solutions Environmental Assessment, Noise and Vibration Impact Assessment Report.

## List of Reference Documents

*Please note that electronic copies of all reference documents can be found at [www.uysolutions.ca](http://www.uysolutions.ca), as well as in hard copy at the project office in Newmarket.*

CRA, AECOM, and Black & Veatch. July 2014 (2014i). Upper York Sewage Solutions Environmental Assessment, Odour Baseline Conditions Report.

CRA, AECOM, and Black & Veatch. July 2014 (2014j). Upper York Sewage Solutions Environmental Assessment, Odour Impact Assessment Report.

CRA, AECOM, and Black & Veatch. July 2014 (2014k). Upper York Sewage Solutions Environmental Assessment, Preliminary Design Report for the Lake Simcoe Water Reclamation Centre.

CRA, AECOM, and Black & Veatch. July 2014 (2014l). Upper York Sewage Solutions Environmental Assessment, Preliminary Design Report for the York Durham Sewage System Modifications.

CRA, AECOM, and Black & Veatch. July 2014 (2014m). Upper York Sewage Solutions Environmental Assessment, Total Phosphorus Off-Sets Study.

CRA, AECOM, and Black & Veatch. July 2014 (2014n). Upper York Sewage Solutions Environmental Assessment, Visual Impact Assessment Report.
