

HOLLAND LANDING QUEENSVILLE SHARON
WASTEWATER INFRASTRUCTURE
CLASS EA REVIEW & ADDENDUM

Are They the Same Project?

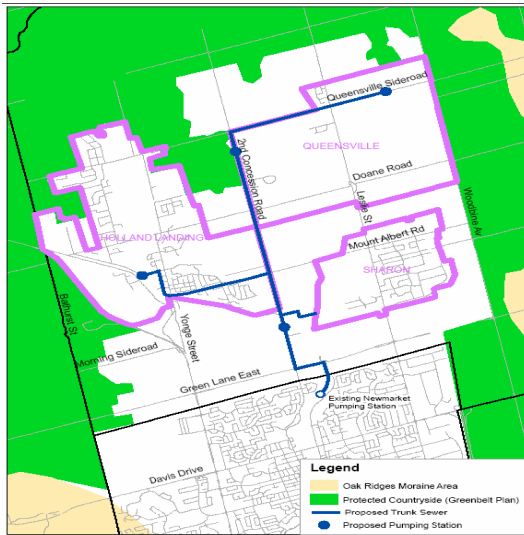

UPPER YORK SEWAGE SOLUTIONS
INDIVIDUAL ENVIRONMENTAL
ASSESSMENT

Servicing Tomorrow's Communities

Holland Landing Queensville, Sharon Wastewater Infrastructure (HLQS)	Questions	Upper York Sewage Solutions (UYSS)
<p>In August 2005, The Regional Municipality of York started the amendment and review process of the 2003 Class Environmental Assessment (Class EA) to provide wastewater servicing to the communities of Holland Landing and Queensville. At that time, the Community of Sharon was added into the amended Class EA.</p> <p>On June 6 2008, the Class EA was completed.</p> <p>York Region is currently completing the design phase, and construction is expected to begin late in 2009.</p>	<p>What Environmental Assessment process is required for each project?</p> <p>What stage is each project at?</p>	<p>The Upper York Sewage Solutions project is an Individual Environmental Assessment (EA) that meets the requirements set out in the <i>Environmental Assessment Act</i> Section 6(2)(a). The goal is to develop a sustainable sewage servicing solution for the upper York area.</p> <p>Both steps, the Terms of Reference (ToR) & EA, require approval from the Minister of the Environment.</p> <p>Currently, the Terms of Reference are being developed. The ToR sets out how the EA will be conducted.</p>

Is there a Preferred Alternative?

Holland Landing, Queensville, Sharon Wastewater Infrastructure Class EA Review & Addendum (HLQS)

The June 2008 amended Class EA recommended connecting the HLQS communities by forcemain and gravity sewers through the proposed 2nd Concession pumping station to the pumping station in Newmarket. The Newmarket Pumping Station is at the north end of the York Durham Sewer System.

Three additional pumping stations were proposed to complete the HLQS: the Bradford Street Pumping Station and two Queensville Pumping Stations, east and west.

Details are available at the project website:
<http://hlqs.cenet.ca>

Upper York Sewage Solutions (UYSS)

The Terms of Reference step for the Upper York Sewage Solutions project was initiated late spring 2009. This is in preparation for carrying out the EA to identify and assess a preferred alternative and the preferred method to implement the preferred alternative. The submission for approval of the EA is anticipated to be sometime in the 3rd quarter of 2012.

Details are available at the project website:
